

PFAFF

1/4 inch Right Guide Foot with IDT

Part No. 820541-096

Piecing:

The 1/4" Right Guide Foot with IDT is designed to help you achieve perfect 1/4" seams when piecing. Simply guide the fabric edge next to the guide. The distance between the needle and the right guide is 1/4".

1. Snap on the 1/4" Right Guide Foot.
2. Engage the IDT.
3. Select a straight stitch.
4. Place the fabric right sides together under the presser foot with the guide at the edge of the fabric.
5. Sew the blocks together guiding the edges so that it touches the right guide.

Topstitching:

The 1/4" Right guide foot also gives a perfect 1/4" topstitch distance from the edge of a block when quilting the blocks, batting and backing together.

1. Snap on the 1/4" Right Guide Foot.
2. Engage the IDT.
3. Select a straight stitch, triple straight stitch or the hand-look straight stitch quilting stitch.
4. Place the quilt under the presser foot with the flange guide in the seam ditch or at the edge of the fabric block.
5. Sew around the block and you will get a perfect 1/4" distance from every block edge.
